1. What is a selfie? How do you take one? Try to explain it.

Do you want to post a selfie?

Posting too many selfies can cause narcissism - the feeling you are better than the rest. Researchers said young people who upload many selfies is a 25 % more narcissist than the others and their personality can change. Sending text messages did not do this. A professor said there wasn't much investigation on this topic so they don't know much about it. He said about 20 percent of people may be at risk of developing narcissism. They want likes from other people after they post a selfie and they want to show others how their life is better.

*Narcissism: too much interest in and admiration for your own physical appearance and/or your own abilities

2. TRUE / FALSE: Read the statements. Say if 1-6 are true (T), false (F).

1. T / F Narcissism is when people care about others more than themselves.
2. T / F Narcissists think they are better than the other people.
